

Login Screens

The following is the Login Screen for MOAT:

The screenshot shows the MOAT login page in a Microsoft Internet Explorer browser window. The page has a dark blue background with the MOAT logo and the text 'Managed.Ongoing.Awareness.Tools'. There are two input fields for 'LOGIN ID:' and 'PASSWORD:', followed by a 'Login' button. A yellow box on the left contains an announcement for Virginia SAT users. A 'Request a new password.' link is also present. Several pink arrows point to specific elements on the page, providing instructions.

MOAT™ Managed.Ongoing.Awareness.Tools

LOGIN ID: ← Login ID sent in first email

PASSWORD: ← Password sent in second email

ANNOUNCEMENTS:

Attention all Virginia SAT users; the MOAT Vault can be an excellent tool for secure sharing of Emergency Preparedness plans, roles and responsibilities.

[Request a new password.](#)

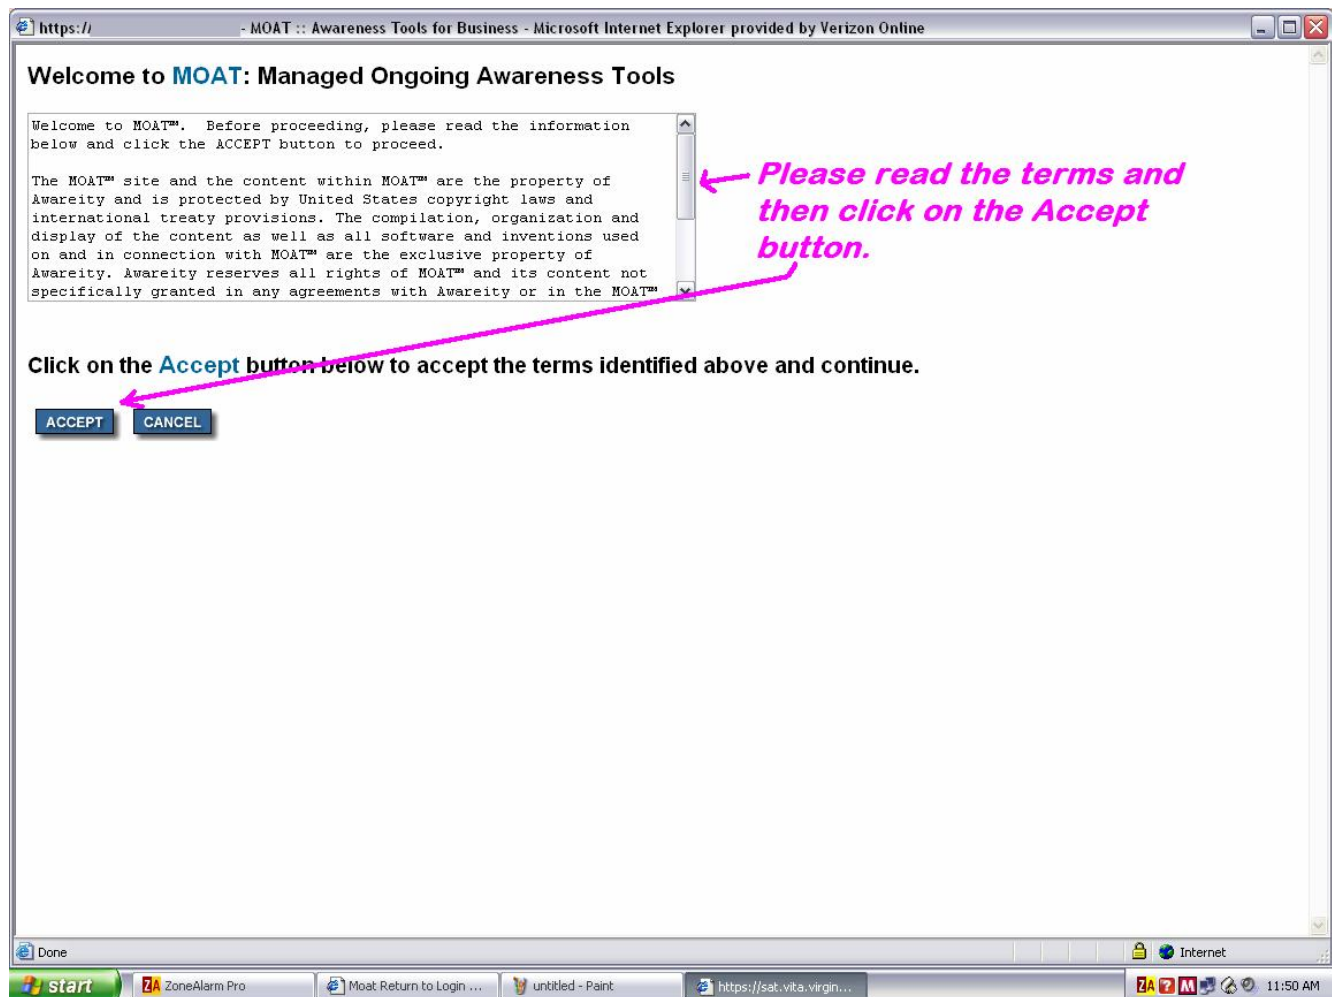

Please Note: MOAT™ will open in a new browser window. If you use a Pop-Up blocker it should be configured to allow Pop-Ups for this site. ← You will need to allow pop-ups in order to use MOAT.

For best results use Microsoft Internet Explorer 5.5, Service Pack 2 or above with this application.

After clicking on the Login button you will be taken to a screen to accept the terms of use for the software. You will need to click on the Accept button in order to continue.

The new Window that opens will allow you to proceed with the instruction, testing, and acceptance. When you are ready to leave the program you click on the Exit link at the bottom of the page and then confirm your intention to quit by clicking on the OK button that comes up.

The screenshot shows a web browser window titled "MOAT :: Awareness Tools for Business and Government - Microsoft Internet Explorer provided by V". The page content includes the MOAT logo, the name "Doug Mack", and a sidebar with "Security Modules" such as Information Security, Internet Security, E-mail & Viruses, Social Hacking, and DJJ Vault. The main heading is "Information Security", followed by "Information Security - Module Objectives" and a list of learning goals. A "Quit" dialog box is open, asking "Are you sure you want to Quit?". At the bottom of the page, there are navigation links: NEXT, HELP, GLOSSARY, TOOLS, BOOK MARK, and EXIT. The EXIT link is highlighted with a red box. A red arrow points from the EXIT link to the "OK" button in the dialog box. Another red arrow points from the EXIT link to the text "To exit MOAT click on the EXIT link at the bottom of the page." A third red arrow points from the "OK" button to the text "You will be asked if you are sure you want to quit. Click on the OK button to exit."

Information Security

Information Security - Module Objectives

Information Security is everyone's responsibility.

After reviewing this module you will:

- Understand the growing importance of information security
- More easily recognize electronic and non-electronic data
- Realize the Importance of Information access and proper information disposal
- Understand how encryption can protect information

This module should take 10-20 minutes to complete.

Information contained in this module to your Supervisor or Security/Privacy Officer.
